**SCIENTIFIC NOTE**

Name Correction in Mexican Acmaeodera Eschscholtz

Reading the abstract of Westcott (loc. cit., p. 20), one can ascertain my intention to name this species *A. aurantiomarginata*; unfortunately the *lapsus calami* at the beginning of the description (p. 21) created a homonym corrected by the replacement name. The holotype was correctly labeled *Acmaeodera aurantiomarginata*.
